

# Noah Wright

404-989-3714 • noahwright87@gmail.com • <https://www.linkedin.com/in/noah-wright-dev/>

**Full-stack engineer with 10+ years of experience • Air Force veteran/ex-Google**

## Work Experience

### Signify Health

**March 2023 – Present**

Senior Software Engineer

Fully remote

- Developed highly reliable k8s cron job. Optimized routes via GCP API, reducing drive time/distance 10%
- Led code quality initiatives. Packaged common code, improved test coverage, shortened release cycles
- MC'd biweekly org-wide learning sessions. Shared best practices, tools, and experiences across teams

### Google

**March 2022 – March 2023**

Software Engineer

Fully Remote

- Worked full-stack of Java gRPC microservice backend, TypeScript frontend, SQL database for Payments
- Maintained Google's code standards: reviewed code, thorough tests/error handling, efficient algorithms
- Adhered to security/accessibility best practices. Standardized on-call/on-boarding/integration docs

### Sovereign Sportsman Solutions

**May 2021 – March 2022**

Senior Software Engineer

Fully Remote

- Full-stack developer of .NET MVC government sites. Utilized C#, EF, Kendo UI, Vue.js, MS SQL Server
- Oversaw full project lifecycle. Gathered requirements, demoed mock-ups, and supported post-release

### U.S. Air Force, Reserves

**March 2020 – May 2022**

Manager, Tactics and Capabilities

Gunter Annex, Maxwell AFB, AL

- Taught Window/Linux terminal & Python scripting, public speaking. Automated Splunk query-writing
- Managed three direct reports. Wrote performance reviews/disciplinary plans, gave career mentorship

### CGI, Inc.

**March 2020 – May 2021**

Software Engineer

Remote due to COVID-19

- Scrum member on fullstack .NET team. Refactored legacy service, raised test coverage from 0% to 70%
- Mentored junior engineers, demoed changes to stakeholders, integrated with internal and external APIs

### U.S. Air Force, Active Duty

**December 2011 – February 2020**

Programmer (2011-2016), Instructor (2016-2020)

Maxwell AFB, AL

- Hardened vital web apps. Fixed 262 security risks, upgraded from deprecated APIs, sped processing
- Instructed 100s of Airmen. Automated instructor duties w/ JS/VBA scripts, enabling 30% larger classes

## Education

### Trident University International
